

# Innovate with X Prize Foundation

## Cadettes, Senior, and Ambassador Girl Scouts

Do you know how technology gets developed? Sometimes it happens in a university lab or at a company. You can also create technology breakthroughs via competition! Come visit X Prize foundation and learn how they make the works a better place through incentivized prize competitions. The first X Prize was given to the first private team to build and launch a spacecraft.

Come participate in hands-on activities based on their current prizes and meet the X Prize team members. And you will also earn a custom patch.

**Saturday, March 3rd, 2012**

**10:00 am to 12:00 pm**

**\$15 per girl**

*Snack and Patch included*

**X Prize Foundation**

5510 Lincoln Blvd. Suite 100  
Playa Vista, CA 90094  
(Same building at EA)
