

**Science and Mathematics Career Conference for:
Girls in Grades 5 - 8
Parents, Teachers, Counselors**

MARCH 17, 2012
Mount St. Mary's College, Doheny Campus

This career day, coordinated by Math/Science Interchange, will be held at Mount St. Mary's College, Doheny Campus in downtown Los Angeles.

It is intended to inform young women about careers in math- and science-related fields. Typical workshops have included dissecting pig hearts, performing color chemistry experiments, and making "asphalt" with chocolate chips, peanut butter, and nuts.

There will also be workshops for parents, teachers, and counselors.

A modest registration fee is charged per person to cover lunch and materials.

Please see our conference website for more information:
