Thank you volunteering with Girl Scouts of Greater Los Angeles. Use this volunteer training record to keep track of your training history throughout your tenure as a Girl Scout volunteer. Some class/workshop names have been provided for you, while plenty of space has also been provided for you to add any additional trainings you complete.

It is the responsibility of the volunteer to keep track of their own training records. In person and live webinar completion is sent via wrap-up email at the end of each training session. Keep these emails for your records and add date of completion here. Completion for gsLearn courses can be found in your account under the “Achievements” tab.
