COVID-19 is an extremely contagious virus that spreads easily in the community. It is extremely important that we take all reasonable precautions to limit potential exposure for girls, volunteers, and families. As COVID-19 infection rates rise and fall in different regions, guidance and developments will vary. GSGLA follows Los Angeles County, California Department of Public Health and national health directives daily and will revise guidance as circumstances change.

**At this time, in-person troop meetings, parent meetings, events, and travel are not permitted.**
