

## ***Residential Walk-Abouts and Lemonade Stands***

There are two popular ways of selling product in hand to the public that are allowed: residential walk-about and lemonade stands, from the time girls receive their ordered nuts through November 22. Girls and supervising adults must wear masks and follow social distancing guidelines.

- Girls must be accompanied by parents/guardians at all times.
- If a customer isn't home, a girl may leave a customized doorhanger or personalized business card at the door for the customer to contact the girl (available online).
- Girls/adults are not allowed to sell on sidewalks/street corners or in commercial areas.
- Girls found selling in a commercial area (i.e. in front of a store or other non-residential area) will risk losing proceeds and rewards.

***Residential Walk-About:*** A door-to-door (wagon) sale in a residential area.

***Lemonade Stand:*** set up a simple "lemonade" type stand to sell only on the property where the girl currently resides, or that of a close relative, as their city and/or home owners' associations permit.
