The health and safety of our membership is our top priority. Any plans of distanced boothing are tentative based on the current state of COVID and CDC, local and state guidelines at the time boothing is available. Our goal, as always, is to safely give girls the fullest Girl Scout Experience possible in all of our programming. While we can't guarantee what the guidelines will be at the time, we can guarantee that we will always follow the most recent health and safety guidelines available and continue to monitor and adapt to changes in these guidelines
