

GSGLA Summer Camp Health Forms

Available Via CampDoc.com

Thank you for choosing GSGLA Summer Camp for your Girl Scout's summer experience. To collect health history and medical care information this year, GSGLA will be partnering with CampDoc.com, a secure, encrypted, and password protected electronic health record system for camps.

Within one week of your camp registration, you will receive a "welcome email" from CampDoc.com with information about how to complete your camper's health history. You will be directed to set up your account and begin entering your camper's health history, which will be maintained year-to-year to make future GSGLA Camp health form submittals easier and faster.

For all GSGLA Day Camps, you must complete your CampDoc.com health history by the Thursday before your camper's session. No scanned or paper health history forms will be accepted – everything must be turned in via CampDoc.com. We will not be accepting any forms in person on the first day of camp. If you fail to meet the mentioned deadlines your girl will not be able to attend that session of camp. If you need a Spanish health history form, don't have access to a computer, or have any questions about CampDoc.com, please contact the Camp Director.
