

2022 FALL PRODUCT PROGRAM

Safe Selling Tips

GSGLA wants you to know that the safety of our Girl Scouts, their families, and volunteers is our highest priority. We have developed safe options for your Girl Scout to participate at a level you find most comfortable.

There are 2 selling methods for the 2022 Fall Product Program -- online orders via M2 platform and the traditional Order Card. Both methods provide a contactless payment option. All nut, candy, and magazine subscriptions make very nice gifts.

Online Sales:

- Click on [M2OS Register/Login Here](#)
 - Girls set up their online storefront and create their personalized Avatar. It is optional for girls to upload their recorded voice, personal video, and/or a picture.
 - Send 18+ valid emails by October 14, 2022, to earn the online charm and meet the criteria to earn the personalized custom avatar patch. Girls can continue sending emails from September 23 to October 23, 2022.
 - Girls/families may share their personal link via text.
 - **Contactless Delivery:** Girl/parent calls, texts or emails supporter (friend or family member) to arrange for a contactless porch delivery or curbside pick-up.
 - Contactless Porch Delivery “Sweets to the Street”: Place the item(s) in a bag or box, include a “thank you” note, and deliver to the porch of the supporter at a predetermined date and time.
 - Curbside Pick-up: The supporter opens the back window of their car and the girl/parent places the item(s) on the back seat. **Girls should only approach a car while accompanied by an adult, after the car is placed in park and the engine is turned off.**

Everyone should wear a mask!

- Customers who request that their order be **shipped** directly to them may choose from 25 nut and candy products.
- More than 500 magazine titles are available, including digital subscriptions (customers can also renew existing subscriptions).
- Gift of Caring (GOC) – customers can purchase gifts of nut and candy products that council delivers to our GOC partners:
 - *Los Angeles Food Bank* – Fighting Hunger, Giving Hope
 - *Bob Hope USO* provides a safe haven for weary troops and military families seeking the comforts and connection to home amidst the chaos and stress of travel.
 - *Operation Gratitude* – Girl Scouts nuts and candy are added to gift packages for deployed service men and women, first responders, veterans, wounded heroes, etc.

In-Person Sales (safety first):

- Troops and families can accept payment from customers via “Cheddar Up” – account must be linked to troop bank account and the troop must absorb all fees.
- In an effort to help with contactless payment, *parents* now have the option to pay the *troop* for Fall Product via Venmo, Paypal, and Zelle (parent pays any fees). Parent receives payment from customers (cash or check), deposits the funds into their personal account, and pays the troop via their personal Venmo, Paypal, or Zelle account.
- Girls and family can use the “traditional” order card to request support from family and friends – **here are some options for contactless sales and delivery:**
 - Print directly from M2 business cards, door hangers, and magazine flyers – each with her personal M2OS link already included – **directing supporters to her online campaign.**
 - Porch Delivery or Curbside pick-up process (see **Contactless Delivery** above).
 - Residential Walkabouts and Lemonade Stands (where the girl, or someone she knows, resides) – both methods are completely up to the discretion of the girl/family and troop comfort level.
- GOC is available until the last day of the program November 20, 2022.

The Fall Product Program can be as simple as sending out emails from a mobile device!

Wishing you the best of luck throughout your Girl Scout Experience.
